

In@OUT

The self priming pump, that will work as a silent domestic water supply unit or as a sump pump.

IN@Out is able to prime up to 7 meters and to work in continuous duty. It is protected by an electronic device that controls all ON/OFF functions according to the requirements. An electronic flow control prevents from dry run. IN@OUT is equipped with a 10 m H07 RN-F7 cable .

1 IN@OUT SUBMERSIBLE

Ideal to be used fully submerged in ponds or water collecting tanks. IN@OUT can be used as a fixed installation.

2 IN@OUT BOOSTER

Ideal for domestic pressure applications.

3 IN@OUT GARDEN

IN@Out is easy to handle due to its practical and ergonomic design.
